A report by [Agência Pública](#) revealed that order 7036900/2020, a key piece in the investigation of Operation Akuanduba, allowed lumber companies to export 100,000 tons of Amazonian wood, including endangered species, during the 15 months it was in effect. The amount exported, which includes wood from endangered trees, is higher than in the last four years. [Fiquem Sabendo](#), an independent data agency specialized in the Access to Information Law (LAI) denounced the lack of transparency of the ICMBio in an article about environmental crimes. The federal agency denied access to information on companies and individuals fined for environmental violations in conservation areas.
